

S E L E C T I O

Our client, Schneider Electric (www.schneider-electric.com), is leading the Digital Transformation of Energy Management and Automation in Homes, Buildings, Data Centers, Infrastructure and Industries.

With global presence in over 100 countries, Schneider is the undisputable leader in Power Management – Medium Voltage, Low Voltage and Secure Power, and in Automation Systems. They provide integrated efficiency solutions, combining energy, automation and software.

They believe that [Great People](#) and partners make Schneider a great company and that their commitment to Innovation, Diversity and Sustainability ensures that [LifeIsOn](#) everywhere, for everyone and at every moment.

Schneider Electric is looking for talented graduates of Automation, Robotics or Mechatronics to participate in their **EcoStruxure Academy – a disruptive postgraduate on-year program** that will provide you with expert knowledge about our cutting-edge IoT platform and its practical usage within the field of **Industrial Automation**. Upon positive completion of the program you will be given full time employment opportunities with Schneider Electric, the global specialist in energy management and automation.

Take advantage of comprehensive trainings across Europe (France, Germany, Spain etc.), gain hands-on experience using world-class technology and discover the latest trends in IoT, all this with the support and guidance of experienced mentors. EcoStruxure Academy will jump-start your career and prepare you for a full-time, critical industrial role.
